

Omar Abdulghani

Junior UX/UI Designer | Digital Product & Brand Experience
| AI-Assisted Web & Product Development

Professional Summary

International Creative Business graduate with merit, combining **UX/UI design**, **digital marketing**, branding, and a two-year **Information Technology foundation**. Delivered **client-based university projects** with external stakeholders, translating research and user needs into UX/UI concepts, tested designs, and practical digital and brand solutions. Completed a **digital marketing and web development internship** at Park Plaza Hotels Europe, applying UX insights, SEO, website optimization, and Google Analytics. Builds **functional websites**, **digital tools**, **API-connected applications**, and interactive product concepts using **Cursor**, **Codex**, and **Claude Code**.

Core Strengths

Concept Development | Brand Experience | UX/UI Design | Digital Product Strategy | User Research | Digital Marketing | SEO & Google Analytics | Web Optimization | AI-Assisted Web & Product Development | Cross-Cultural Communication | Branding | Digital Design

Relevant Experience

Feb 2024 – Jul 2024

Digital Marketing - Web Development (Internship)

Park Plaza Hotel Group Europe – Amsterdam, Netherlands

- Supported **UX**, **SEO**, **performance**, and **content improvements** across PPHE hotel and restaurant websites.
- Created **GTmetrix** and SEO reports using **GA4**, Google Search Console, and Mangools, translating insights into practical recommendations.
- Designed **Figma** concepts for **booking panels**, **landing pages**, and **website improvements** in collaboration with brand, content, F&B, and development teams.
- Supported **digital assets** and **web updates**, including Radisson RED display banners, Park Plaza **logo refinements**, **WordPress** fixes, and **HTML** templates.
- Assisted with **website compliance** and localization, including **cookie banner updates** and multilingual content checks.

Featured Projects

Client-based projects combining research, UX/UI design, brand strategy, testing, and delivery.

Dec 2024 – Mar 2025

Amstelhof Connect App

Amstelhof Sport & Health Club – Uithoorn, Netherlands

UX/UI Design · Figma · User Research · Usability Testing · AI-Powered Communication

- Designed a **Figma** prototype for an internal staff app improving task management, member tracking, staff coordination, & engagement.
- Used **interviews**, **surveys**, **focus groups**, and **usability** testing to turn stakeholder insights into features such as an AI Email Center, Member Centre, and Staff Centre.
- Included **rollout**, **GDPR**, and **ROI planning**.
