Questions

AMSTELHOF CONNECT

An internal staff app designed to **enhance customer satisfaction** and **retention** by proactively managing **personalized interactions**, **member tracking**, and **milestone recognition**. It automates key touchpoints like birthdays and achievements, ensuring that every member feels valued while **reducing manual tasks for staff**.

WHY AMSTELHOF CONNECT?

- Inefficiencies with fragmented systems.
- Lack of tools for personalized member engagement.
- Communication and task management gaps.
- Customer retention

"A centralized platform for staff to enhance efficiency, improve member engagement, and align with Amstelhof's values of personalized service."

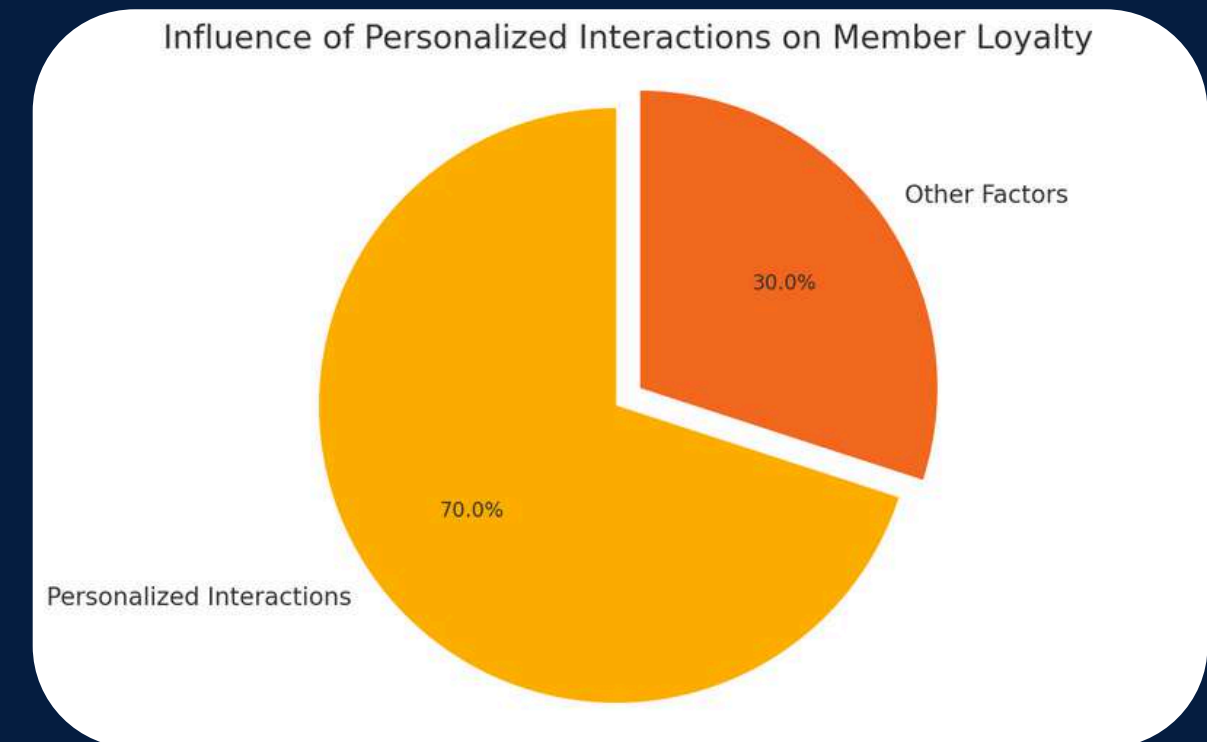

RESEARCH AND TESTING INSIGHTS

Key Experiments Conducted:

- Interviews with staff.
- Member survey on personalization preferences.
- Focus group for user-driven prototyping.
- Usability test for final validation.

Insights:

- Staff need consolidated tools.
- Members value personalization.
- Prototypes were well-received with improvements suggested.

ITERATIVE DEVELOPMENT PROCESS

Four Iterations Overview:

- Email Center, Happiness Index, and Feedback Feed Widgets.
- Enhanced Email Center with AI features.
- Member Interaction & Follow-Up Center (Member Centre)
- Staff Coordination & Task Management (Staff Center).

Feedback Feed

Good Improvement Idea Attention

-  The staff is always so friendly and helpful! 🥰 Good
-  Great experience overall, but the pool could be cleaner. Improvement
-  It would be awesome to have more early morning classes! Idea
-  The gym is too crowded during peak hours, hard to get a good workout. Attention
-  The app is super easy to use, booking a session is a breeze! Good

Subject: Personalized Facilities Recommendations

"Hi [Member Name]! Based on your recent
enjoying the cardio sessions 🏃. To complement your fitness routine, we
recommend trying our Strength Training 🏋️ or relaxing in the Wellness Spa 🧖 to unwind.
You can also enjoy our Yoga & Stretch classes to improve flexibility and reduce
stress.

You can easily book any of these sessions through the app—your wellness
journey is our priority!"

Objective

Aims to achieve a leaner and stronger body by reducing body fat while building muscle. His goal is to lose 7% body fat and gain 5kg of lean muscle through a mix of strength training, cardio, and proper nutrition within six months. Regular progress tracking and tailored support will keep him motivated and on track.

STRATEGIC BENEFITS AND FUTURE STEPS

STAFF EMPOWERMENT💪

Value Creation:

- ⚙️ Enhanced operational efficiency.
- 💡 Improved member retention through personalized attention

Alignment with Amstelhof's Vision:

- 🤝 Focus on personal connections.
- ⭐ Supportive work environment for staff.

Monetization Ideas 💡

- 📁 Licensing the app to other gyms.
- 📊 Offering analytics as a service.

In the document you can find more about:

Strategic plan for implementation and adoption.

Ethical and legal considerations (e.g., GDPR compliance).

Financial analysis, including development costs and ROI projections

Detailed experiment results and insights.

Timeline and next steps for future development.
