ABOUT HER:

She would consider herself as the typical indie girl, she's a student and an emotional person that empathizes a lot with people, especially her friends. She's socially conscious and therefore social issues are important to her. She's vegan for instance. She's an environmentalist and cares about the planet and nature, she participates in climate protests. She spends her social media time mainly on Instagram and Pinterest but her most used app is Spotify where she listens to bedroom pop artists such as Rex Orange County and Clairo.

CARAVAN LIVE SESSION

Jacob Drescher Caravan live session.

The setting of the live session is in a garden (nature) like environment to represent and embrace the EP's concept.

The decor inside the caravan consists of things like gardening tools, music equipment, and EP references (Album cover posters, lyrics, etc.).

The performer has the freedom to perform inside, outside, and around the set. Ideally starting inside and then going outside as the performance advances.

*The crew consists of camera operators, a photographer, a sound mixer, livestream operator, and a broadcast director.
